The VPSI vanpool from **Framingham** has seats available for a few lucky commuters that are ready to give up on the hassle of driving into work each day. The vanpool is looking for individuals or a small group of friends that would like to save money, reduce their stress, while at the same time help improve air-quality and congestion in greater Boston.

Vanpool Subsidy Available

When you join a vanpool you may be eligible to receive a subsidy from the ABC TMA of \$220.00 over six months. A vanpool provides its riders reduced stress, increased free time, a quicker commute, and a healthier environment. Vanpools currently travel into Boston from Cape Cod, New Hampshire, and Western Massachusetts.

Who Is Eligible?

Any employee or tenant of an ABC TMA member company or building, and who is currently driving alone one day a week or more, is eligible to join.

Worried you will need your car in case of an emergency or overtime?

When you join a vanpool you will be eligible to receive a free ride home in case of an emergency or unscheduled overtime through the ABC TMA's Guaranteed Ride Home program. No more having to worry about the school calling you to pick up a sick child or having to wait for the midnight train after working late to finish your boss's report.
